## StayClean™ Strips

### Condensate tray bacterial control

#### Special Features

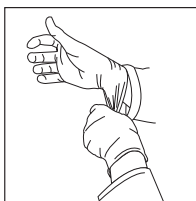

- Specifically designed for use on large cooling systems
- NSF® approved

StayClean™ Strips are a condensate tray treatment providing up to twelve months' protection from bacteria, fungi, algae and other micro-organisms. The large sized StayClean™ Strips are designed specifically for use on large cooling systems. When used correctly, StayClean™ Strips are safe to use in food preparation and storage areas.

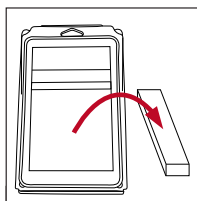

#### PRODUCT SPECIFICATION

Name	StayClean™ Strips
Product Code	S010332GB, S010327GB, S010331GB
Packing Quantity (ml, L)	large 6 x 1, large 60 x 1, small 6 x 1
Packing Size (L x H x D cm)	9.5 x 15.4 x 2, 15 x 25 x 7, 6.6 x 12.5 x 2
Shipping Weight (kg)	0.16, 1.57, 0.05
Shipping Volume (m <sup>3</sup> )	0.0002, 0.0027, 0.0018
Soils	Controls bacteria, mould & fungus

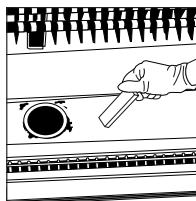

## Directions of use

1. WEAR GLOVES

2. REMOVE

3. PLACE

Simply place 1 StayClean™ Strip, every metre, at the highest end and adjacent to the coil. Ensure that the condensate runs over the strip, resulting in the treatment covering the entire tray.

For trays with a central drain hole, place a strip either side of the drain.

If there is not sufficient space in the tray for the strip, it may be placed in the return bends at the end of the coil at the opposite end to the drain connection.

To ensure that the condensate drain doesn't block up, StayClean™ Strips should be used in conjunction with CoolSafe® and DrainSafe® as part of the 3 stage cleaning plan.

Store upright in a cool, dry place.

#### Disposal

Product: Dispose of in a regulated landfill site or other method for hazardous or toxic wastes.

External packaging: Dispose of as normal industrial waste.
